Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. The abstract of the disclosure is objected to because the abstract is not present on a single page free of extraneous materials. Correction is required. See MPEP § 608.01(b).

2. The disclosure is objected to because of the following informalities: There is no "Brief Description of the Drawings" section found in the specification.

Appropriate correction is required.

3. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: No literal support can be seen in the specification for the limitations of claims 17 and 29.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 21, 33 and 38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "low-chromate" in claims 21 and 33 is a relative phrase which renders the claim indefinite. The term "low" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

In claim 38, line 8, the phrase "the cured weight" lacks proper antecedent basis in the claim. Also the phrase "about 30 to about 60% by weight" found in line 9 is confusing as the claim previously recites that the amount of the sand is from "about 20 to about 60 % by weight" therefore it is unclear as to how the amount of cement of the cured mixture can be less than the amount that is utilized to form the wall covering.

Allowable Subject Matter

6. Claims 11-20, 22-32 and 34-37 are allowed however applicant needs to correct the objection to claims 17 and 29.
7. Claims 21, 33 and 38 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
8. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record, which is the most pertinent art found, fails to teach and/or fairly suggest the instantly claimed subject matter.

Art Unit: 1755

Information Disclosure Statement

9. The prior art cited by applicant has been considered by the examiner however it is not seen to teach and/or fairly suggest the instant invention.

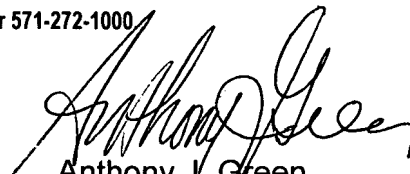

References Cited By The Examiner

10. The prior art is cited as showing the general state of the art and as such it is not seen to teach and/or fairly suggest the instant invention.
